Top 10 Reasons to Give

1. Transformation
Through our giving, we transform our community and through our charity we open our hearts. With a contribution as small as $2 per month, you transform yourself and our world.

2. Choice
With more than 700 different participating agencies, you can find the organization that matches your interest.

3. Integrity
Every participating agency is monitored and selected based on sound criteria. You know your money will be well spent.

4. Efficiency
The fund drive allows charitable agencies to concentrate energy and resources on providing services to those in need instead of on fund raising.

5. Community
Your contributions can be directed to agencies operating in your home town. You can help where you live.

6. Cooperation
Together, our many contributions are combined into a very powerful funding source that fuels vital community services.

7. Need
Because as long as one child goes to bed hungry in our community or one adult can’t apply for a job because they can’t read, then our giving is absolutely necessary.

8. Hope
Your contribution can make all the difference to someone who may have lost everything but their hope. Reach out today and make someone’s day.

9. Fate
Any one of us might need the services of charitable organizations in the future. Giving today ensures that those services will be available when we need them.

10. Convenience
Payroll deduction is simple. Just sign your pledge form and the rest will be taken care of (and don’t forget – you can change or cancel your contribution at any time in the future).

People act from the heart, not the head.
When you ask someone to Donate, they give because they want to help, make a difference or feel a need to give something back to others.
Impart a sense of appreciation when you make your appeal.
